Fire Breaks Out and Tweety linuses Burned-The Damage Done at Heaufort. S. C., Atlanta and Savenah. Ga., and Other Places.

PULL PARTICULARS.

CHARLESTON, Sept. 2, -- Shorily after ten o'clock Thesday night an cartiomake, of auch violence us icas never before been experienced in this city, occurred. The whole city was shaken violently, causing a heavy ioss of life, and delng lumneusn damage to property. The city is one mass of The streets are completely blockaded with the debris of rulned houses, telegraph poles, trees, wires, etc. Vehicles can not be driven through the streets, whiin pedestrianism is both dangerons and difficult. The people have been in tice streets aince the occurrence of the first shock, wringing their hands and, erying aloud to God to save them. Whole families passed the night fluidled together in open space, some of them continuously lu-

ploring divine n.d.

Opinions differ as to the number of shocks which occurred. Some assert that there were only two, while others are positive that there were three. A great many insist that there were even more. However this may be, the first was the most severe and did the most damage. There are many larlidings wrecked, but it is impossible to ascertain, in the present state of affairs, how many.

how many.

A few of the names of those who have elther lost their lives or received fatal in-juries hirough the destruction of their dwellings have been asceriated and among iwellings have iseen asceriated and among them are the following: M. J. Lypeti, ir. It. Alexander Hammond and Alusley fieldesson, all whits. A majority of the victims are colored people. It is impossible to give wn estimate of the loss to property at present, but it is believed it will reach far up in the millions. The city is completely isolated and at present there is no means of either entering or leaving it.

The principal husiness portion of the city

ether entering or leaving it.

The principal husiness portion of the city was destroyed and immireds are rendered homeless. The main station house, the City Hall, Hilbernian hall and many other pubble lediblings, including the Never Hyling St. Michael's Chorch were irreparably damaged. Broad street presented a spectacle of the utmost horror. Even women, armed with intellests, worked valuatity to rescue marked an incremental unfortunates. Miceting afreet. imprisoned unfortunates. Meeting street, from liroad to Hagie, is a wreek, and linest

with homeless people.
To add to the horro fires broke out and were ineffectually fought by the fire department. The night was made hideons with the howls of the dying, growns of the wounded and prayers of the uninjured. It is impossible yet to state the loss of life or damage to property. 11p to ten delock in the morning ten distinct carthquake shocks were felt here. Al 820 Wednesday morning another wave

A 18:29 Wednesday morning another wave swept over the eity, coming, as the others did, from the southeast, ity that time the people who had been out in the public parks and open piaces all night, had veutored into their houses to get elothing and something to eat. The approach of the quake was heraided by the usual rumbling sound, re-sembling dislant thunder. Then it gradually approached, the earth enivered and beaved, approached, the earth quivered and heaved, and in three seconds it had passed. The sound dying out in the distance. It was not destructive, all the destruction having been done at 9.55 Tuesday night.

The city is a complete ruin. Si, Michael's clovell and St. Philips: two of the most historical institutions in the cliy, nro in rulus, as are also the Hibernian hall, the polico stations and many offier qubile build-ings. Fully Iwo-tidrds of the residences in the city are inhabitably wrecked, either totally or partially. It is impossible, at this time to give a correct estimate of the casualties. It is expected that between fifty and one hundred persons have been killed,

and several hundred wounded.

At Tybee Island, at the mouth of the Savannah river, the lenses in the light-houses were destroyed. The people on the tsland telephoned to the city that they were In a state of terror. There can be no com-munication with the main land for some time and all the inhabitants are assembled in the high land. The highland was awept

in the high laid. The highland was swept by a tidal wave in Angust, 1881, and the people fear n similar disaster now.

At the time of the first shock fire inner out in five different places in the city. About twenty houses were destroyed by the. All the slores are closed and a scare ty of provisions, but because no one can be get to the stores to sall them. The prople wentled expected sall them. stores to sell them. The people sto all en-camped on the open plains, festing to remain

In the city.
COLUMBUS, S. C., Sept. 2.—At 9:50 Tuesday night the city was visited by a terrible enriliquate. The first shocks were fearful. enritiquate. The first slocks were fearful. Buildings swayed and the earth rose and fell like like waves of the ocean. People rushed madly from houses into the streets, some sprang from windows and were injured. Jany of the most substantial huldings were clicken to their foundations. The walls cracked and sprung. Five minutes after the first shock a second came. In ien minutes a third. Other slocks followed, until 105 a. m., when the eighth shock was felt.

At four o'clock Tuesday morning the

a. m., when the eighth shock was felt.

At four c'clock Tuesday morning the ninth shock came and at 9:30 and 10:20 a. m. the city was again made to tremble.

It may now be stated that all the damage to properly and all loss of life was caused by the first shock at 9:55. Theselay night, and yet, owing to the repeated shocks and tack of avstemalic effort to unearly casu-

Very little sieep was had by any of the In-liabitants of Columbia. The negroes liought the end of the world had come and they held prayer meetings on the street

Sumerville, twenty-two miles from Charles-Sumerville, twenty-two miles from Charles-ton, was nearly desiroyed by the earthquake. The passenger train from Columbia to Charleston was thrown from the track near Summervillo and the engineer and fireman killed. The passengers on the wrecked train have not yet reached Charlesion.

THE VERY LATEST. CHARLESTON, S. C., Sept. 2.—Two alight parthquako sinocks were felt during the day yesterday. They were but slight quakes and nelther of them did any further distriction. destruction. Not even during General Gil-mere's bombardment of the city has there ever been such a deplorable state of affairs here. The city is literally in rulus and the here. The city is iterally in rulus and the people are living in the open squares and public parks. There is a great rush to the ratiroad depots to get away, but owing lo the damage to railroads no trains have been ablu to be dispatched from the city. Telegraphic communication is also cut off save one wire of the Scuthern Telegraph Company, which is crowded with anxious private messages. It is impossible to deplet the rulu and desolation that prevails here. Not a singin place of insines a in the city is open save the drug stores, which are busy preparing prescriptions.

stores, which are busy preparing prescrip-tions for the wounded.

It is impossible at this time to give any correct estimate of the killed and wounded as boiles are constantly being disinterred from the debris of wrecket houses. One unicitaker who was interviewed stated timt include formished eight coffins up to moon yesterlay. Many of the dead of the power classes of colored people lie numered, classes of colored people lie numered, awaiting borlai by the county. There is not a half dozen tenta in the city, and women and ctdldren are experiencing great priva-tions in consequence, and as night ap-proached most of the heads of families were trying to construct tents out of bed-sheets, spare, awnings and any either material thai

'The niarm and appreciension among the The niam and apprehension among the citizens continue numbated. The impression spread among tim people, from some unknewn cause, that the shock of Theeday night was likely to be repeated last night and this added to the prevailing anxioty. The atreets last night presented a sad picture of desciation and rum. The parks and open places were campling grounds of thousands of poorly-ciad and discouraged people. There was a general desire along the more well-to declasses to get away from the city and as soon as communication is est-ddished. and as soon as communication is established there will be an exodus. This will be the there will be an exedus. This will be the case independently of the present feeling of panie, for even after this passes away there will be in any families who will remove temporarily while the restoration of the city is being carried on. There are also many visitors who see no charms in the pince now and will hasien to their homes North and South.

A weil-known eitizen thus describes his experience during the shock Tuesday night: "We all made a rush for the street, int when we saw tuildings swaying and wnils topping into the streets in every direction, a feeling of despair assenced to seizh upon everybody. I, for one, realized the oscienses of attempting to escape and I saw others atop and attail still as if giving themshives up to whatever rate had in store for them. The sickening sensation caused by the movement of the earth was insiding thore agoating them the terrible noise which acappairing than the terfible noise which accompanies the shock. This was not very loud but was like a few and threatening grown ander the earth. This pleasing of frightened women and children and the freuzled shouts of men calling to one analysis of the state of the state of the shock of the other and attempting to organize some means of rescno formed a singular contrast to this subjerraneon thunder.

"People stood despairing for a mnment "People stood despairing for a minnent and then a tunnitous rush was made for open spaces. I ran as fast as anybody, yet I recall vividly the horror pictured on the faces of those near me. The tiding has made an indelible impression on my mind, and even now I look for that ominous roar. The weeping of women and the hearse crica of the men as they run hither end thither among the wreeks of wails and telegraph wires can never be adequately described."

The largest clowd of fugitives collected in Marion Square in the center of the city. Times shocks followed one another at short Three shocks followed one another at short intervals, and learly had the panic caused by one partially haded when another tremor of the earth renewed the alarm. So frightened were the walling crowd that they hardly perceived that each shock was somewhat lighter than its predecessor. It was only late in the morning that the prayerful and despairing throng, finding the earth once more solid for many hours, gathered courage enough to again seek the neighborcourage enough to again seek the neighbor-hood of their shattered homes.

The principle danger seems to be that the

food numply may give out. Already there-ingreat scarcity of food and none can be ob-tained from outside the city as all railroad communication is shut off. It is stated by communication is finited in the state of the right and a single read out of here in running condition. The convulsions of the earth are said to have wrecked the tracks so completely that there is not a streich of tail forty rods long in nny location for miles around that is not twisted out of mape so as io make it hupos-sible to run an engine over it.

Many people slopt last night on board the steamers and salling vessels in the harbor, ind only a small proportion of the homeless can thus be accomissed and. The rest will have to spend another night under the stars, dreading another earliquake. Complaints of honger and the dread of starvation are heard on all sides as an addition to the horrors of thestluntion.

MORE SHOCKS.

At a quarter past five o'clock last even ing, which thousands of the people of Charleston were out in the open squares and vacant places of the city, lingering and resigned to another night of anxinty, fear and vacan places of the city, meeting and resigned to another night of anxinty, fear and terror, the premonitory symptoms of an earthquake were heard and foit in a slight vibratory wave and shock that passed along over the city. No additional dmnage or wreekage of buildings followed, but men, women and children, out in the open spaces, were for a while greatly sgliated. Fortunately the weallor has been pleasant and the privations and hardships attending outdoor exposures not severe. However, the situation is becoming desperate, with a whole city camped out, in a ierrible state of fear. The negroes have taken possession of all the parks and vacant lots and are holding excited payer-meetings.

It may now be stated that all the damage to property and all loss of life was caused.

parties have been organized to recover their borlles. Unfortunately like Mayor of the city is now in Europe and his place is to differently filled. The Chief of Police, too, it seems, is unable to meet the emergeneles. 11:45 P. M.—Itepeated shocks of earth-quake of a mild character are passing to the

west of the city. A rumbling neise can be items distinctly, but no disturbances are felt here. The whole population is awake and the ediered folks are engaged in religious the extored folks are engaged in roligious exercise. Among the white people it is generally thought that the erials is over. It will be understood hew hupossible it is to furnish figures relating to loss of life when it is known that all the streets are inlockaded and travel through the debris is impossible except with great difficulty and apparent perii. At this moment another rather severe shock has just passed over the city, toppling over a number of houses.

over a number of ionises.

One of the fires last night was started at Vandervoort and Klig sireets soon after the shock. Ten dwellings at least were consumed. Fortunately the weather was calm and this addition to the innror was in some converse avorted. Another serious fire converse avorted. and this addition to the inrror was in some respects averted. Another serious fire occurred on the corner of George and St. Phillips streets. There was much difficulty experienced by engines in reaching the score, and his people, white and black, formed a fire brigade and fought the fiames with heads of waiter.

with buckets of water. 1 A. M.—The latest obtainable estimate of the essuaities is from thirty to forty killed and one hundred wounded. At this hour

and one fundred wounded. At tals noir all is comparatively quiet.

Areal str., Ga., Sept. 2.—The shock at five delock yesterday afternoon caused great consternation here. One long was frightened into convinsions and died from the effects. Everybody siayed out of doors last right. As mmy as can do so will leave town at the first opportunity.

Collimna, S. C., Sept. 2.—The shocks which occurred about midnight last night were general throughout Georgia and South Carolina.

ATLANTA, (ia., Sept. 2,—There were two additional shocks after the first one at time o'clock Tuesday night. One occurred at midnight and the other at four o'clock Wednesday merning. Neither was so plainly feit as the first one, but they served to make everybeigh town, steenless and when the feit as the first one, but they served to make everybody in town sleepless, and when the day broke people gathered to relate their experiences. The meager but startling news from Charleston was received early in the morning and caused much apprehension. The papers published extras at frequent incirvals. At five o'clock, there was another slight shock and the fears which had somewhat abated were again aroused, but no damage was done. There was a general inspection of heuses here yesterday and several were promuneed musafe. Last night a committee of citizens left for Charleston to render whatever aid they could to the uncommittee or citizens left for Charleson to render whatever aid they could to the un-fertimates there. Dispatches from all over Georgia state that the abooks felt here were noticed throughout the State, but no serious damage is reported.

ItEAUFOUT, S. C., Sept. 2.—The earth-quake abock was feit here at 9:50 and was quakn añock was feit here at 9:50 and was very severe. In fact there were several añocks at intervals of about five minutes. In all there were fifteen, most of them, except life first, being slight. The first shock knocked chimney tops down, shook pictures, stopped clocks and drove people in fright from their houses. The shocks which followed kept the people in a terrible state of alarm. At about 4:30 Wednesday merning there was another quite severe shock. Peoalarm. At about 4:39 wednesday morning there was aunther quite severe shock. Prople did not return to their houses after the first tremer, but spent the night in the fields and streets. The negroes were nearly erazed and the whiles were hadly enough frightened. There has been great excitement and suprejuesten all day.

special special day.

Savannau, Ga., Sept. 2.—The eartiquake nineks here, commencing about 9:30 o'clock Tuesday night, lasted several minntes. Several slight shocks were felt later in the night. When the quaking first begnn men, wnmen and chlidren rushed into the streets, where many remained until day-light. The negroes were terror stricken. The Bryan street cimren (colored) was hadly cracked, and the plastering failing upon the congregation assembled within caused a terrible scene of confusion. Many negroes thought the day of judgment had come. In another church where there was a religious gathering, a panic and stampede followed the first sheek, and several persons were trainpled and severely injured. Very little damage other than the cracking wails and the failing of plaster is reported in this city, and no lives were lost.

Nearly every bulliling in the city was more or less damaged and nine tenths of the people are sleeping out of door.

the people are sleeping out of door.

Washington, Sept. 2.—Major Powoil,
Director of the United States Geological
Survey, furnishes the information that ob? servations at Washington showed the direc servations at Washington showed the direc-tion of the shocks of cartiquake Tuesday night to be a very little north of east and the vibrations from 115 to 120 per minute. This earthquake, like earthquakes in gen-eral, is attributed to internal disturbance resuiting in a contraction of the earth's crust. The occurrence of earthquakes in the east-ern portion of the United States is attributed ern portion of the United States is attrimised to geologic facts, which are being carefully studied, and which Indicates that in Georgia and the Carolinas, Virginia and northward there is a sesward tilting of the surface, unquestionably connected with subterranean movements. It may be questioned whether there has ever been a general movement on any part of the earth's surface much more energotic or rapid than that now taking piace along the Atlantic slope, and the comparativo luminuity from serious earthquakes is due more to the less profound depth of this great displacement and the absence of volcanic venis than to the absence of great earth movements.

Know-Nothing Lodges Still in Existence

Cincago, Sept. 1 .- It has just been discovered that there are, in Englewood, three Know-Nothing iodges of the principles of years ago. In Euglewood proper there are two lodges, and one in Normal Park, the residents and politicians living in the vicinity are dishurbed and incensed over the matter, and one noted politician has offered \$100 for the names of the members of the

Teamer Defeated.

SEVEN CREMATED.

ailties, il is impossible to give details. Many of the dead, it is believed, are yet huried in the debris, and no regular relief A Sickening Calamity in a Pennsylvania Town.

> Roasied Alivs in Their Beds in the Second Story of a Railroad Shanty.

WILLIAMSPORT, PA., Sopt. 3 .- Word has been received here of a siekening caiamity which occurred about midsight last night, five miles and a haif above Jonestown, or the line of the Williamsport and North Itranch railroad, where a large number of Hungarian laborers are employed on an exteasion of the road. A shanty, in which over twenty of these men ledged, caught fire last night from the overturning of a stove while the men were asice. Elxteen men slept on the second floor. Those on the first floor and all on the second floor hut seven succeeded in getting out. The others were tet to their fate and were reacted alive in the hurning shanty. Their charred remains were afterward found in the ruins. The men who escaped were so panicatricken that they made no efforts to save their companions. The remains of the seven dead were removed to Jonestown to await the arrival of the coroner from Laporte. The names of the yleitims have net yet them received. A Hungariau named Jeninsky was mardered and his body hiddon under a shauty on the samo raliroad at Eiklick. A short time since, when the shanty was torn down, portions of human remains were found in a quantity of bloody straw. The men who occupied tie shauty have disappeared. Hungarian laborers are employed en an

THE PRINCE'S PERIL.

An Attempt to Wreck the Train to Sofis-Rebel Treops Surrender at the Hatgarian Capitol.

LONDON, Sept. 3.—An attempt was made to wreck the train which was conveying Prince Alexander to Sofia. When near Philippopolis the engineer discovered an obstraction on the track and brought the train to a standstill. On investigation it was found that two steepers had been placed across the rails. Prince Alexander when informed of the attempt upon his life showed no sign of fear, maintaining a calm demeanor. A conflict between the revolutionists and their followers of Prince Alexander is feered at Sofia. Prince Alexander has promised King Milao to send a diplomatic agent to Servia. The revolutionary regiments here have surrendered unconditionally to Prince Alexander and applied to him for elemency. Bulgaria is an an account of the prince Alexander and applied to him for elemency. LONDON, Sept. 3 .- An attempt was made

ANOTHER SHOCK

is Felt Along the Allantic Coast From Florida lo Washington. CINCINNATI, Sept. 3.-Another shock of carthquake was felt a few minutes after eieven o'clock to-night. The weve extended from Jacksonvliie, Fla., to Washington. ed from Jacksonvilie, Fla., to Waskington. The commotion was most severe at Charleston, S. C. Two buildings feli. A white woman, name unknewn, was killed by a failing wat. People are oneamped in the public square, singing and praying. At Richmond, Va., the shock in the upper part of the city was as severe as that of Tuesday night. At Savanuah the shock was severe. All structures were deserted and everybody will sleep ta the streets. Shocks were felt in Washington, Raieigh, N. C., Wilmington, N. C., Augusta, Ga., and Macon, Ga.

Mysterious Erup Ion in Illinois.

OAKLAND, ILL., Sept. 3.— Yesterday, the cltizens of Bowdric Township, north of this clty, were startied by a noise like the expication of a stemn bolier. On examination, it was found to have been caused by an eruption on the farm of Christian Lnakenbach. That gentleman stated today that when the noise occurred a cloud of smoke and dust was thrown sixty feet in the air, in which were stumps of trees, stones and roots. A deep bele was left in the earth, which has not yet been explored

The Week's Failures.

New YORK, Sept. 3 .- The business failires occurring throughout the country during the last aeven days, number for the United States to, and for Canada 24, or a total of 190, as compared with 201 last week, and 185 the week | (revlous to the last. The Western and Pacific States furnishing nearly kalf the casualities reported in this country.

Secretary Bayard Has a New Case. HELENA, MONT., Sept. 3.—Secretary Bay-ard has written Governor Itazer, asking for a history of the case where a Chinese laundry was blown up in Aconta and two Chinamen killed, and \$3,000 werth of property destroyed. It is said the Chinese authorities want the Government to pay independent of the complex of t

Reminders of the Earlhquake.

demnity.

Acousta, Ga., Sept. 3.—A special from Beaufort snys: Near Coosaw Mines there is a crack in the earth 200 feet iong aud six inches wide at the top. On St. Helenn tsland, off Beaufort coast, several inige openings were made and piles of mud nud sand were forced up.

Killed by Electricity.

MINNEAPOLIS, MINN., Sept. 3.—Superintendent W. H. Broekway, of the Brush Eicetrio Company, was instantiy killed here last night by an electric shock received while he was engaged in repairing the electric lights at the Nicollet House.

A Horrible Death in the Machinery. Pittsbunen, Sept. 3.—John Weish was instantly kilied in the Union Foundry and Machine Company Works to-day. He was caught in the beiting and his hody was terribly mangied, nearly every bone being broken.

overwheimed with work. The employea are working from 8 o'clock a. m. to rild night every week dny. CHARLESTON, S. C., Sept. 3.-"Earthquak-

nna" is the name suggested for a little girl brought into the world just before the rent uphcavai here Tuesday night. Mother and child, it may be sald are doing well, notwithstanding the fact that they are quartered in Washington Square.

Government Tents for the Homeless, Washington, Sept. 3.—Colonel R. N. Batcheider, Deputy Quartermaster GenDESOLATION.

The and Scenes That Meet the Eye im Charleston

Charleston, S. C., Sept. 2.—The number of deaths from the earthquake up to date wounded more will probably die. The wreck of the city is pretty complete, and the damage will be eaormous. There are very few houses of brick in the city unwreck of the city is pretty complete, and the damage will be eaormous. There are very few houses of brick in the city unliqued, and bundreds of buildings that appear comparatively unharmed, are so shaken they will have to come down. This makes it difficult to estimate the damage but it is not putting it toe strong to say that Charleston, with all the experiences of bombardment and cyclone, was never so badly shattered as now. The sight is a sad one. The people, after the terror of their experience, are nervous and expectant; thoy are camped in the public squares and parke, very few venturing into houses, and none into irrick or stone buildings. The shocks atili centinue, quite a severe one being feit at 6 o'clock this evenlug, which sent what few people were under cover into the street. There was a disagreeshle sulphinrous smell in the air, which has been noticed since the begianing of the shocks. At Sum merville the shocks continued but a few minntes apart, and heavy rumbling sounds precedee and accompanies each shock. Fissares have opened in the earth at Summerville and other piaces. The city and country surrounding is an immense camp, nearly all the people living fix improvised tents or sleeping in covered wagons. The sight atong the raiiroad from Summerville to Charleston is a strange one; immense fires of pitch-pine lighting up the scene ail along the ronte. The sensation is strangely terrifying, and one must know something of it personally to fully appreciate the herrors of the expurience these people have been subjected to, and the wild scenes that have been enacted here. There is, of course, hope that the worst is passed, and as long as the disturbances continue the people live in fear and trenibling. The center of the disturbance seems to be at Summerville, a pretty town used a good deal for a summer resort by Charleston people, and lying on the S. C. railway, twenty-seven miles away. A strange occurrence was the twisting of the railroad there by the earthquake, and the facility of the full of the summ

THE \$30,000 PACKAGE.

Rumor That It Has Been Found in a Safe Sent From Philadelphia to Iowa. 1 PHILADELPHIA, Sept. 2 .- A rumor, which PHILADELPHIA, Sept. 2.—A rumor, which is quite generally credited, states that the Adams Express Company received news, last evening, of the finding of the package of money amounting to nearly \$30,000 which was shipped by the Pennsylvania Railroad Company to Shamokin, Pa., about ten days ago, and which disappeared in some manner from the Express company'a office in this city. It is said that the package was accidentally piaced in the wrong safe and sent to some point in lowa. Wreth Pratt, a cierk who was arrested at the time, was given a second hearing before a Magistrate yesterday and committed back to the prison in defauit of \$15,000 bail.

BATTLE WITH MEXICANS.

Geronimo, the Wity Apache, Escapes Dur-ing the Melec. Tomestone, Aarz., Sept. 2.—A rumer has reached here that Mexican troops have demanded of the American troops the re-lease of Geronimo. The latter rofnsed.

lease of Geronimo. The latter rofused. A fight ensued, in which five Mexicans were killed and two Americaas wounded. Geronimo escaped during the metee. There is no means of verliging the facts, as the wires are down.

San Francisco, Car., Sept. 2.—A special to the Morning Call from Tombstone confirms the rumor that Mexican troops demanded from American troops the release of Geronimo, and that when the latter refused, a conflict ensued, during which Geronimo cscaped.

Over Five Hundred Robbertes at Chicago Within Three Monties.

Cnicago, Sept. 2.—During the past three months more than 500 burglaries have tamonths more than 500 hurgiaries have ta-ken piace in this city and been reported to the police. Ever since the bomb exploded on the Haymarket Square the police have heen looking for Anarchists. In the mean-time jurgiars have worked through certain districts with as much impunity as though there were no policemen in the city. Whole neighborhoods have been ransacked by en-terprising thickes, who, when they falled to get what they were after the first time, came back the next day or the next week, until they succeeded in accomplising their designs.

A Case of Cru lty.

NEWARK, N. J., Sept. 2.—Legal proceedings are about to be commenced against the lielaware, Lackawanna and Western railroad for violating the U.S. laws in re-gard to the transfor of live stock. From their cars the careasses of thirty-two dead animals were taken from among the live ones. It is said the stock had been on the road thirty-seven hours without nonrish-ment. The penalty is a fine of \$5,000.

The Death-Dealing Sleam Thresher.

ALBANY, N. Y., Sept. 2.—On the farm of Rutger Vanderhurgh, in the town of North Rutger Vanderburgh, in the town of North Greenhush, three miles north of Bath, this morning, the bolier of a steam threshing machine exploded and cansed the death of David Philips, the owner and engineer, and of Archie Hunkle, of Bath. Mortie De Freest, a boy, received fatal injuries, and a farm iaborer camad Livingston and Rut-ger Vanderburgh were more or less burt.

The Yellow Fever at Blioxi. BILOXI. Miss., Sept. 2.-There were two

deaths from yeilow fever to-day, and about ten eases. There is no excitement, except among visitors. People of New Orieana and Mobile are satisfied, through strict quarantine regulations, it will be confined to this town, Biloxi.

Volcanic Eruption.

Malta, Sept. 2.—The Captain of a ateamer just arrived bore reports that on Angust 30, when bin ship was fourteen mites to the north of the Island of Gaiita, off Tunis, in the Mediterranean, he noticed that the highest peak on the oastera end of the Islaud was in a state of eruption, ejecting amoke from a crater like Mount Etua.

Going to investigate at Charlesion. Washing to investigate at Charleston.
Washington, Sept. 2.—An official of the
Coast Survey has been sent to Charleston
to make soundings of the harbor and adjaccan coast in order to see whether any
remarkable depressions or elevations of
the bottom of the ocean have been caused
by the earthquake. IOWA'S CURIOSITY.

The Great Well Still Flowing, and Efforts

to Plug It Prove Unavailing.
Belle Plain, Ia., Sept. 5.—The great well Belle Plain, I.a., Sept. 5.—The great well still flows. For a short time last evening it was partially shut off. The great cone, having been enlarged to thirty-six inches, was lowered full of sand. It went easily for sixty feet, when it became necessary to drive it, and the 1,600-pound hammer was applied to the five-inch pipe connected with the cone. This pipe stood thirty feet above the surface. After a few strokes had been given, the flow of water was somneh diminished that the people began to shake hands and many bags of sand were thrown in to give additional weight to the cone to filt up the apertures. The big hammer was again applied and after a few strokes the pipe shot down into the water like a rocket does upward. A ewift gush of water, a gurgle and the hopes of att were buried ont of sight with the cone and its enunceting pipe. The sixteen-inch pipe heretofore meationed its at the bottom, and the heilof is that the cone has goue down until it struck. That would teave it 120 feet from the surface.

RUSSIA TRIUMPHS.

Prince Alexander Voluntarily Abdicates

the Bulgarian Throne.
Soria, Sept. 5.—Prince Alexander has oublicly announced his intention of abdi-cating. He says be can not remain in Bnicating. He says be can not remain in Bulgaria on account of the objections of the Czar. Before leaving he will establish a regency. He made the foilewing address at a reception given by him to the officers of the army: "For seven years I have labored for the independence and interests of Bulgaria. My coustant special solicitude has been for my army and efficers. I consider them my family, my children, and I have felt secure in my personal position when I have seen my self surreunded by efficers who had been my comrades in our struggles for the glory of Bulgaria. ** "I can not remain in Bulgaria, for the Czar will not permit me, because my presence is infinical to the luterests of the country. I am forced to quit the throne."

MURDER AS A BUSINESS.

A Female Fichil Who Confessés lo Com-

mitting infanitelde for Money.

Milwaukke, Wis., Sept. 5.—The finding of a dead infant with a durning-needle thrust through its heart has led to tha disclosure that a regular business of putting closure that a regular business of putting habes to death at so much per head has been carried on in this city. Mrs. Pauline Mittelstaedt, proprietress of a privato lyling-in hospital, fled a few weeka ago upon ascertaining that the authorities had accumulated criminating evidence. She traveled under an assumed name in Michigan, hut was overhauled at Reed City and brought back to-night. She confessed the murder of the child, and claimate have been promised \$300 by its mether for putting it ont of the way. The anthorities are investigating the deaths of numerous other infants born ont of wedlock, supposed to have been put to death by her.

A Sunday In Belfast

BELFAST, Sept. 5.—A mob attacked and severely beat four policemen at Bally-macarett, a suburb of Belfast, to-day. The macarett, a suburb of Belfast, to-day. The police broke away from the crowd and took refuge in a bonso. The mob followed them, and, in their effort to recapture the policemen, completely wrecked the honse. Fortunately for the poticemea, the military arriven ou the spot in season to rescue them and scatter the mob. Two of the leaders of the rioters were arrested. An Orange funeral was attacked by Cathotics to-day and the procession severely stoned. The Orengemen broke ranks and retailated upon the Catholics, serlously injuriag several of them. The police quieted the disorder and drove the Catholica party away.

A Floht With a Burolar.

PEKIN, ILL., Sept. 5.—Yesterday morning, Wm. Muchlman, a druggist of this city, was awakened by a slight noise, and found at his bedside a masked burgiar, found at his bedside a masked hurgist, who placed a revolver at his head and demanded niency. Mr. Muchiman grappied with the hurgiar and a desperate stringgle followed, in which the burgiar was thrown from the wiado w. Carl Muchiman, a son, fired four shots at the robber, one of which took effect, but the man managed to cross the river and escape.

More Shocks. BAVANNAH, GA., Sept. 5.—At 10:45 o'clock to-night another shock, equal in severity to that of last night, was feit here. Hundreds of people are still camped in the squares. The continuance of shocks is very severe on buildings which are greatly atrained.

Augusta, Ga., Sept. 5.—There was a slight shock this evening at 10:40, city time, accompanied by a low, rumbling noise.

Church Tower Settles In Wilkesbarre WILKESDARRE, PA., Sept. 5.—Settling of the tower of the First Methodist Episcopal Church here was discovered yesterday. Church here was discovered yesternay. This is attributed to the recent earthquake shock, which was folt to a great extent in this locality. The church is a now one and cost \$80,000. The tower is 138 feet high. The doors were closed to the congregation today and will remain so until an investigation te made.

Took Up a Collection.

Baooklyn, Sept. 5.—A collection amounting to \$600 was taken up in Dr. Talmage'a Chnreb this evening for the Charleston sufferers. Dr. Talinage aent a telegram to Editor Dawson, expressing the sympathy of the congregation and promising further contribution.

Fear a Tidal Wava:

CHARLESTON, S. C., Sept. 5 .everhanging dread here is of the tidal wave. The earthquake has done about its worst, but the sea, if diviven in, would wipe this rulned city and all her people from the face of the earth.

A Novel Offer-

New York, Sept. 5.—At a meeting of the the Brookiyn G. A. R. to-night it was decided to offer the service of one hundred members to the people of Charlester for police purposes.

Snow in Montana.

Br. Pari, Minn., Sept. 5.—The first snow-storm of the season in the Northwest is reported from Heleus, Mont. The fall was quite noticeable, and the thermometar marked only 31 degrees above zero.

Fatally Burned.

CRESTLINE, O., Sant. 5.—Mrs. Marinda Bennett's dress caught fire while driving in a buggy near hear and was fatally burned.

To encourage the distribution eight copies will be sent for \$5.

All communications should be addressed to Hon. John E Kenna, Chalrman, 1408 H street, N. W., Wushington, D, C.

Many men of many minds have agreed Maysville, Ky., September 14th, that Table's Buckeye Pile Ointment is do no good, but it is undoubtedly a safe simple and permanent cure for piles one of the most painful diseases that ever befel a mortal, and we are sure every sufferer with it will hasten to refleve himself Ch'm of the Republican Ex. Com. by using Tabler's buckeye I'lle Olntment.

The Plea of the Republican Leaders.

Please Mr. Liquot Dealer, won't you come into our parlor, we have been trying to make our platform ever so accommodating. We can not drive away the temperance people any longer, and we must do or say something to pacify them, but we promise you Mr. Diquor Dealer that we will "give Republican saloon-keepers in the city the protection to which they are entltled,"

You know we enunot spare the temperance vote; they are now flocking over to the Prohibition Party in such numbers that we are obliged to say unti-saloon and such other plaitudes, but it will be all right in the end, help just once more; ilo stay with us through another Presidential election; we will always so atrange to vote on the amonilment for a change in the Constitution so that it will not pass, but you know we cannot say so out loud, but you have always found us true to your Interests. Now, Mr. Liquor Dealer, take our word for it, we promise that nothing shall be done to interfere with your interests and all that we shall say or do will be to throw dust in the eyes of those fanatical Temperance people. Now, Mr. Liquor Dealer stay by us for the present, CURE FOR ASTHMA AND CATARKH won't you, please do .- From Demorest's Monthly for September.

AN Answeit Wanter.

Can any one bring us a case of Kidney or Liver Complaint that bleetric Bitters will not discellify cure. We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Rick in any unriverse complaint quickly cured.

PAY WHEN CURED

USE RENEWER.

It is a medicinal preparation, and, at the same time, an elegant and cleanly tollet urticle. Its action upon the scalp is healthful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and vigorous. It restores the color of youth to locks which have become faded with age or disease; and relieves and cures tiching, caused by humors of the scalp. Dr. George Gray, Nashna, N. II., writes: "It gives mo pleasure to testify to the wonderful effects produced by Hall's Vegetable Siellian Hair flenewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandhein, 1010 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and, realizing that I was fast hecoming baid, I tried, as a last resort, Hair's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied that it is the best preparation in the market for cheeking the falling out of hair, invigorating the hair roots, and promoting a new growth."

THE COMMONWEALTH.

Louisville Leaf Tobacco Market. Dark and heavy tolaccos have sold at even full prices, both for medium and good grades, while low grades bave been occasionally irregular, without any final noticeable changes in prices. The weather conditions have been perfect—bot and foreing, with ample moisture in the air and soil. August has quite redeemed the deficiencies of July, tringing the plants forward with great appread of leaf and increase ward with great apread of leaf and increase of weight. The crop has "nabuttoned" itself for a race against time, and everything at present is promising. The weather has been of a character to stimulate the flow of sap ead quicken the growth, the ripeniag tendency being suspended. If this be succeeded presently by dry and cool weather the crop will come ia, barring frost, in good form as to character and leafiness, and also relatively so in polat of quantity but the yield will not be an average in quantity. We quote 1885 tobaccos as fol-

iowa for full weight packages.

AT Owingsville, the trial of John Montjoy for the killing of Dan Epperhart resulted in a verdict of acquittal.

A NEW-norn mala babe was left on the steps of Sim Payae's grocery near Frank-fort, the other night. As Payne is nearly as old as Frankfort, he buadled the infant off to town, where it was left in care of Judge Thompson, of the city court, where at last report it was awalting the protec tion and love of its parents.

Thazz negroes hoarded a street car in the southern suburbs of Louisville, the other night, seized the driver and gagged him. They then took the cash box, containing seventeen dollars, and made off

HON. JOHN FELAND's dwelling, at Hopkinsville, was considerably damaged h fire a few days ego.

CRIEF OF POLICE WHALLEN has opened war upon all the crooks and suspects of Louisville, and has served notice upon them to clear out or go to the workhouse for a long term. This action is reodered necessary to get at the crooks who have committed the recent hurgieries and sefcrobberles. There is consequently a large exodus of the short-haired and light-fingered gentry from the city.

Live stock, generally, are reported by correspondents of the State Commissioner of Agriculture to be in good condition, with full average as to numbers, except sheep and hogs, the former reported at 95, as to condition, and 84 per cent. as to munibers. Hogs are reported at 97, condition, and 85 as to numbers. "Hog cholera" prevalls to a considerable extent in the tles of Nelson, Ohio, Wayne and Whitely, and in a moderate degree in Breathitt, Graves, Hancock, Jefferson, Muhlenberg, Owsley and Perry Counties.

Mas. SARAH PEARMAN was presented by tha employes of the Dueber Watch Casc Company, Nowport, a purse containing \$171.80. Mrs. Pearman's sou was drowaed lu the Licking river a short time since.

SEVENTY-ONE counties report to the State Agricultural Department tobacco at 86 for condition and 8 tacreage. Recent rains have made a very marked improve-ment in this weed, and if frost is not too early we may expect an average condition for this crop.

Tue bodies of the five persons drowned in Green river, near Mammoth Cave, were recovered after a two days' search by the entire community. A great quantity of dynamito wus exploded in the river, in order to raise the bodies. One of the horses had uncoupled the wagou in his death atruggles, and the wagon-bed floated down LIVE STOCK—Cattle-Common \$1 50 @ 2 55 and Reposses. Decorate Your stream. It was strong enough to have boro the weight of the entire party had they remeined in it. The other horse swam down the river 300 yards, dragging his dead companion and the fore wheels of the wagon. The young mnn who was drowned was an excellent swimmer, and it is thought that the women and children clung to him until all of them were lost. All the victims, with the exception of the young man, who lived in Cave City, lived in Mouroe County, and were returning from a visit to Grayson. The husband of one of the women drowned had been left behind by reason of illness, and when the news of the death of his wife and child was told him, he relapsed into a comatoso con-

dition, and is not expected to recover. A special to the Cincinnati Eugniver 'John S. Rhea, a lawyer at sellville, is a prominent candidate for Congress in the Third District, now represented by John E. Heisell. The latter is a candidate for re-election, and a hot contest for the Democratio nomination is in progress. At a recent public meeting at Eikton, Rhea. in a speech, charged one T. F. Hite with certain electioneering statements in behalf of Haisell. Hite sent Rhea a note asking for a retraction, which was refused. Hite then sent a challenge to a duel. Upon re-ceipt of this challenge, Mr. Rhea told the bearer he would enswer him soon, and go-ing to his room wrote a reply. Ithca declined the challenge to fight a duel for acverni reasons. One was because he had no sort of sympathy for the code that with de liberate lutont sought the shedding of one's own or another's blood. Another was that the laws of God and man forbade It, and the final roason was that he had one de-pendent upon him for support and owed protection to her, and that acceptance would disbar him from the practice of the profession he had adopted as a means of livelihood, and would leave him without means of support."

A SOLDIER named Richardson, residing at Milton, Trimble County, has been grauted a pension by Acting Commissioner of Pensione McLean. Richardson is totally blind from the effects of disense contracted in Andersonville prison. He will now recelve \$73 por month, and the arrearages allowed him, for which a draft has been sent him, which amount to \$11,746

Ox the Harper farm, near Oid Deposit Station, nina miles from Louisvilla, Martin Duke shot and falally wounded James Finu, his brother-in-law. The trouble crose from a quarrel between their wives.

Work was begun a few days ago et Bardstown on the extension of the 14 and N. road to Springfield.

HOW TO BE POPULAR.

What People Want of Persons Who Move in Their Society.

Nothing can be more certain than that the happior, the luckler, the better dressed and the gayer you are, the more people like you. In romance you can throw yourselves luto people's arms and tell them all your woes; but in real life

you can't do it. It is not that society does not wish to have miserable people in its whirl so much as that sad people are out of place there. A merry voice, a smiling face, a habit of praising the world rather of blanning its makes any one as than of blaming it, makes any one acceptable. People who can set others laughing are popular. On the whole, no doleful person need to expect sympathy; it is too troublesome. Woelegone folks are not wanted. Even strong feeling, deep thought or fervid sontiment is troublesome in society. Light talk, agreeable chat, subjects that can not hurt any body's feelings are de-

If you can manage to be anuising without being satirical, interested in every thing that is said without being personal, and to dress with good taste, even if you are poor, you will be populated. lar. We are not sure that it is worth while to win what is neither love nor Interest, but it is beller than to be unpopular. And, in any event, the 'nloddrims,' the exhibition of your empty purse, broken heart or poor health, will be against you.

When you have to be wretched-as, When you have to be wretched—as, if you own a heart, you must—go away by yourself and cry. If you are poor, take your poverty into a dark corner where nobody will see it. And when you can no longer bo well, go away and suffer in silence. As a general thing, all that the people want of yon is to amuse thent in some way, and if, in all the world, you have one friend who truly symputhizes with you in joy and sorrow, you have a rarer thing than the phænix. At all events, re-member that you can not bemoan yourself and be popular, even among your own next of kin, -Baptist Weekly.

Think of This

Many people have neglected slight manifestations of humorin the blood till the foul reatter has become so powerfal as to cause terrible scrotulous sores, awful suffering, and, finally, as the system becomes drained of all its strength, death. Some have neglected distress after eating, heart-burn, occasional businesses, and other early symptoms of dyspepela, till this painful disease has become incurable, and the victim barely austains a miscrable existence.

Others neglect that thred feeling, pains in the back, weakness, languor, till general debility and kidney or liver disease becomes firmly fixed upon them and there is no hope of recovery.

Be wise in time: thoud a Sarsaparilia will cure, when in the power of medicine, scrufula, sail rheum, boils, pimpiez, dyspepsa, headache, billospess, catarrh, rheumatism, that thred feeling, and any disease or affection caused by impure blood or low state of the system.

ow state of the system.

100 Doses One Dollar DR. JOHN BULL'S Smith's Tonic Syru

FOR THE CURE OF FEVER and ACUE Or CHILLS and FEVER,

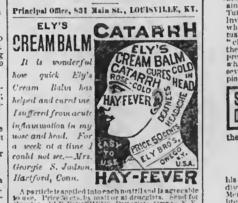

AND ALL MALARIAL DISEASES. The proprietor of this celebrated medicine justly claims for it a caparierity over all remedies ever effered to the pablic for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or leng standing. He refers to the entire Western and Sonthern country le bear him testimeny to the truth of the assertion that in ne case whatever will it fail to care if the directions are strictly followed and carried

the directions are strictly followed and carried out. In a great many cases a single dote has been anflicient for a cure, and whole families have been cured by a single bottle, with a per-fect restoration of the general health. It is however, prudent, and in avery case more cerhowever, prudent, and in avery case inch ac-tain to cure, if its use is continued in smaller dotes for aweek or two after the disease has been checked, mera especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels la good order. Should the patient, however, re-quire a cathartle medicine, after having taken three or forease of the Tenle, a single dose three or foar doses of the Tenic, a single dose of KENT'S VEGETABLE FAMILY PILLS will

ha safficient. USE no other pill.

INVALIDS' HOTELAND SURGICAL INSTITUTE

No. 663 Main Street, BUFFALO, N. Y.

Not a Hospital, but a pleasant Remedial Home, organized with

A FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS,

And exclusively devoted to the treatment of all Chronic Diseases.

This imposing Establishment was designed and erceled to necommodate the large number of invalids who visit Buffalo from every State and Territory, as well as from tanny foreign lands, that they may avail themselves of the professional services of the Statt of skilled specialists in medicino and surgery that compose the Faculty of this aidely-celebrated institution.

A FAIR AND BUSINESS-LIKE OFFER TO INVALIDS.

We carriedly invite you to come, we and examine for yourself, our institutions, appliances, alvantages and success in curing chronic diseases. Have a mind of your own. Do not listen to or level the counsel of skeptical friends or jealous physicians, who know acting of us, our system of treatment, or means of cure, yet who never lose an opportunity to misrepresent and endeavor to prefudice people against us. We are responsible to you for what we represent, and if you come and visit us, and flud that we have misrepress; ted, to only portficialer, our institutions, advantages or success, we will promiptly refund to you all expenses of year trip. We court honest, sincere investigation, have no secrets, and are only too glad to show all interested and cauched people what we are doing for suffering humanity.

NOT ALWAYS NECESSARY TO SEE PATIENTS.

By our original existen of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. While we me always gial to see our patients, and hasome acquainted with them, show them our institutions, and familiarize them with our system of treatment, yet we have not seen one person in five hundred whom we have cured. The personal examinate principles of model in the constraint of the practical application, to the practice of medicance with which cleans an emission of the several dejactments, appears almost mirraculous, if we view it in the light of the early agree. Tuke, for example, the electrosimagnetic telegraph, the greatist linearing one person of exercise principles of model in the entire that a marvelous degree of accuracy with which this system of practice, and inspire calcio nearly three thousand mice long? the venerality predicts their movements. He can set in Washington and forestell schall the wenther will be in Florish or New York as well as if several hundred united in the securacy with what is required is the knowledge of certain placed within the casy reach of every invalid, however than and the pinces natured.

SIGHS OF DISEASE

INTERIOR STATES AND SECURE OF THE PROPERTY OF THE PROPERT

COMMON SENSE AS APPLIED TO MEDICINE.

It is a well-known fact, and one that appeals to the judgment of every thinking person, that the physician who devotes his whole time to lie study and investigation of a certain plane of diseases, must become better qualified to treat such diseases than he who attempts to least every ill to which this help, without giving special attention to any class of diseases. Men, in all ages of the world, who leave become famous, have devoted their lives to some special branch of science, art, or literature.

literature.

Ity therough organization, and authividing the practice of aucdicine and surgery in this institution, every favalld is treated by a specialist one who devotes his inclivided intention to the particular class of diseases to wideb the case belongs. The advantage of this arrangement must be obvious. Medical science offers a vast field for investigation, and no physician can, within the brief limits of a life-time, achieve the highest degree of success in the treatment of every malady incident to humanity.

OUR FIELD OF SUCCESS.

The trentment of Diseases of the Air Passanges and Lings, such as Curoult Nature Catarris, Larying lits, Hroncittis, Asthma, and Canarris, Larying and Isonetic accussed to the treatment of a case for consultation, so that we may know which one of our Treatment of a case for consultation, so that we may know which one of our Treatment of a case for consultation, so that we may know which one of our Treatment of a case for consultation, so that we may know which one of our Treatment of a case for consultation, so that we may know which one of our Treatment of a case for consultation, so that we may know which one of our Treatment of the most careful and concerning the horizon of the consultation, both the region of the contains and treatment of the treatment of the treatment of the canar, park though the contains and treatment of the said of a superior of the process of direction, are very obscure, and are not hires in the process of direction, are very obscure, and are not hires in the following the directed to the removal of a case for consultation, so that we may know which one of our Treatment is cut of the process of direction, are very obscure, and are not hires in the following particular to the process of direction, are very obscure, and are not hires in the following standing, or of what size, in protophly and trectunent is employed detected to the removal of a case of the process of direction, are very obscure, and are not hires in the following standing, or of what size, in protophly and trectunent is complete. Treatment of the while our space and the original particular treatment of the kail to and disease, which does not exist. Our Complete Treatment of the removal of th

BHIGHT'S DISEASE, DIABETES, and

AIDREY
DISEASES.

Indeed unlaidies, have been very largely treated, and curse effected in thousands of cases which had been pronounced beyond loope. These diseases are readily stagnosicated, or determined, by chemical analysis of the urine, without a personal examination of patients, who can, therefore, generally be successfully treated at their tromes. The study and practice of elements unalysis and interosceptical examination of the urine in our consideration of cases, with reference to extreet diagnosis, in which our institution long goo because tamona, has naturally led ton very extensive practice in diseases of the urinary organs. Probably no other traditution in the world has been so largely patronized by suffers from this class of unladdes as the old and world-famed world in hispensary and invalual listed. Our specialists have acquired, through a vast and varied experience, great experiences in determining the careful nature of each case, and, hence, lawe been successful in nicely adapting their remedies for the curre of each tudividual case.

CAUTION.

These delicate diseases should be carefully ireated by a specialist thoroughly faintifar with them, and what is competent to ascertain the exact condition and stage of advancement which the disease has made (which can only be ascertained by a careful chemical and interescopical examination of the urine), for medicines which are curritive in one stage or candition are known to do postire infury in others. We invenever, therefore, attempted to put up anything for general sale through druggists, recommending to care these diseases, although possessing very superfor remedies, knowing full well from an extensive experience that the only safe and successful course is to carefully determine the disease and lis progress in each case by a chemical and microscopical examination of the urine, and then adapt our modicines to the exact stage of the disease and condition of our patient.

To this wise course of action we attribute the

WONDERFUL

To this wise course of action we attribute the morvelous success attained by our specialists in that important and extensive Department of our stitutions devoted exclusively to the treatment of diseases of the kidneys and bladder. The treatment of diseases of the kidneys and bladder. The treatment of diseases of the principal organs having constituted in leading branch of our practice at the invalids' Hotel mud Surgical institute, and, being it constant receipt of connectors inquiries for a complete work on the nature and curability of these maintailes, written in a style to be easily understood, we have published a large Hinstrated Treatise on these diseases, which will be sent to any address on receipt of ten cents in postage stamps.

BLADDER DEU, STONE IN THE BLADDEH, Gravel, Enlarged Prostate Gland, Heatton of Urlino, and klodred affections, may be included among those in the cure of which our specialists have achieved extraordinary success. These are fully treated of in our illustrated pumpilet ou trinnry Diseases. Sent by mail for ten cents in stumps.

STRICTURE.

STRICTURE.

STRICTURES AND URINARY FISSELLA CONTROLL OF THE AND OF THE AND

DELICATE
DELICATE
DISEASES.

Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses, impaired memory, mental analety, alsence of will-power, mitancholy, weak lanck, and kindred affections, are speedily, thoroughly and permanently cured.

To those acquainted with our institutions, it is hardly accessary to say that the invalide flotel and Eurgien Institute, with that iranch establishment located at No. 3 New Uniford Street, London, Eugland, have, for many years, enjoyed the distinction of being the most largely patronized and widely eclebrated institutions in the world for the treatment and cure of those affections which arise from youthful indiscretions and pernetions, softlary practices. We, many years ago, established a special bepartment for the treatment in these diseases, under the management of some of the most skillful physicians and surgeons on our Staff, in order that all who opply to us might receive all the advantages of a full Council of the most experienced specialists.

WE OFFER NO APOLOSY.

We offer no apology for devoting so much intention to this neglected class of diseases, believing no condition of humanity is less writered to merit the sympathy and being no condition of humanity is less writered to merit the sympathy and being on doing good and alleviating suffering, about distance intention doing good and alleviating suffering, about distribution times them times every them these terriles we cannot imagine. Why any one should consider it otherwise than most begonate. Why any one should consider it otherwise than most begonate to cure the worst cases of these diseases, we cannot understand; and yet of sit the other unsladtes which affilled mankind there is probably none about which physicians in general practice know so little.

We shall, therefore, continue, as heretofore, to breat with our best consideration, sympathy, and skill, all applicants who are affering from any of these delicate diseases.

CURED AT HOME. A blost of these cases can be breated by us when the person.

SURGICAL

PRACTICE.

Hundreda of the most difficult operations known
to modern surgery are annually performed in the
most skillful manner, by our Engrous-pecialists. Large Stones are safely removed from the
lists. Large Stones are safely removed from the
interpretation of the verifing, washing and pumping them
ont, thus avoiding the great danger of cuttling,
ont, thus avoiding the great danger of cuttling,
when needed. Many Ovaries and lasert artificul ones
when needed. Many Ovaries and curred by electrolysis, coupled
with other means of our hupertion, whereby the great danger of
cutting operations in these cases is needed.

Especially has the success of our luproved operations for Varicoccle, Hydroccie, Fistone, fluptured Cervix Uteri, and for Ruptured Perineum, been alike gratifying both to nurselves and our
publications. Not less so have beaut the results of sumeroun operations
for Strictum of the Cervical Canal, a condition in the female gencially recutting in Burrenness, or Fierillty, and the curre of which,
by a safe and prinices operation, removes this commoncet of tupediments to the bearing of offspring.

Although we have in the preceding para-

Although we have in the preceding paragraphs, made mention of some of the special aliments to which particular attention is allowed by the apericular attention in a special section of the special section is a special section of the special section of the successful treatment of every form of chronic aliment, whether requiring for its cure medical or eurgical means.
